

Overview of the Dashboard

What is a dashboard?

The dashboard is your home screen. This is what you see when you login. It is the central place from where you access your most of the functionality of the software. It also lists all your projects and account details.

Below is a list of tools/icons which you will find on the dashboard:

Functions on the side bar

S.No	Button/ Tool	Icon
1	New Project – Add a new project by with the help of this icon. Give an appropriate name to your project and begin designing	
2	Projects – With the help of this link, you can explore, browse and find your saved projects	
3	Inspiration - Inspirations are pre-modelled interior designs. These also serve as ready-made templates for you to pick from. You can choose either specific products from these pre-modelled designs or copy paste the entire inspiration to your project.	
4	My Account – My Account provides the details of your subscription plan, billing and usage. This also is the place from where you can change your profile and password. If you have to upgrade your plan or buy additional 'Add on' credits, this is the place to go.	
5	Renders – A list of all your renders is showcased on the Renders link for your easy reference. From here, you can also download the renders.	
6	Help – A repository of help guidelines and video tutorials on how to use various features of Neo to begin designing. You can contact us or reach our support teams from here.	
7	Invite – Invite members of your organization to start using Foyr NEO and collaborate with the help of this option. This is subject to your subscription plan.	
8	Profile - The profile icon on the top right of the dashboard, provides an overview of your account with details on plans and add-ons, usage & payments along with an option to logout. You can also use this icon to upgrade or buy additional credits.	
9	New Project – With this icon add new projects and begin designing	
10	My Projects – This is the section on the dashboard from where you can view or edit your projects. One sample project is created the first time you log in, for you to play and learn the system.
